State Fish and Game Commission
Keith Freseman, Acting Secretary
January 20, 1972

The Montana Fish and Game Commission has adopted and published Sunrise-Sunset Tables for determining hunting hours, (Revised, 1965). These tables are based on Mountain Standard Time. During periods that Daylight Saving Time is in effect, one (1) hour should be added to time indicated in the tables in order to determine proper hunting hours.

Open season for hunting shall be one-half (½) hour before sunrise until one-half (½) hour after sunset on each day as indicated by dates for each game district and Sunrise-Sunset Tables.

It is prohibited to use any poisonous, explosive or deleterious substances on or in any arrowhead, bullet or projectile.

The entire state shall be closed to the hunting of all big game animals except as specified under the numbered district regulations. To insure a proper harvest of game, seasons may be closed on two days' notice or if necessary may be reopened.

All State Game Preserves and State Parks shall be closed to hunting unless otherwise specified in State Park Regulations.

Immediately after killing a game animal you must properly tag the game animal as directed on the tags.

Nonresident big game hunters must be accompanied by a resident who holds a current Conservation License or by an outfitter or licensed guide. The nonresident hunting license will be signed by the outfitter or a resident who holds a current Wildlife Conservation License, with exceptions.

Exception 1: A nonresident need not be accompanied when hunting deer in some deer districts or while hunting antelope in some antelope districts as designated on the accompanying map.

Exception 2: A landowner or his agent may authorize nonresidents to hunt on the landowner's fenced land or leased fenced land without a guide by signing the nonresident's hunting license.

The accompanying maps are intended only as an aid in choosing your hunting district.

Legal descriptions of hunting districts are included on the fold-in.

Montana's game tagging laws are strictly enforced. When you have killed your game animal, cut out the proper month and day from the carcass tag and immediately attach it to the carcass. A tag is pictured below.

JUDGING A 3/4 CURL BIGHORN RAM

The horns of bighorn sheep rams continue to grow throughout the lives of the animals. As the horns continue to grow, they begin to take on a spiral or corkscrew shape. When viewed directly from the side, horns of mature rams appear roughly circular. If they appear to fill at least 3/4 of a full circle when viewed from the side, then they are known as 3/4 curl rams.
